 Hand-knitted socks, by O. W. Evans, Mrs. Turner.
 Darning on socks or stockings, by J. Zinkan, Mrs. Turner.
 On the 10th inst., on the Chicago and Atlantic railroad, while passenger train number 12 was making some repairs, it was run into by freight number 48 following wrecking the sleeper and four coaches. No one was hurt in the sleeper. Six were killed and fifteen wounded in the coaches. Four of the killed were burned to death. The cause was the neglect of No. 12 to protect the rear of the train between Grove and Kouts stations.
 Dhanup Singh has written a sensational letter to the native paper in which he says that England has offered him \$250,000 in settlement of his claim against the Government on condition that he would not go to India. He rejected the offer. His arrest at Aden, he says, converted his loyalty to bitter hatred of England, and he has solemnly resolved to devote his life to freeing his country from the British yoke. He declares that he will serve his new sovereign, the czar, with his life's blood. It is expected that the letter will induce the journals published in the Indian vernacular to attack British rule.
 The snake's poison is in his teeth; but there is something quite as dangerous, and much more common in communities, which has its poison on its tongue. Indeed, your chances of escape from a serpent are much greater. The worst snake usually glides away in fear at the approach of man unless disturbed or attacked. But this creature, whose poison lurks in his tongue, attacks without provocation, and follows up his victim with untrusting perseverance. I will tell you his name, so you will always be able to shun him. He is called Slanderer. He poisons worse than a serpent. Often his venom strikes to the life of a family or neighbourhood, destroying all peace and confidence.
 A very successful exhibition of telegraphing to and from a train on the Lehigh Valley road where the system is in operation, was given recently with the train going in a minute. Messages were sent and stock quotations were handled perfectly, and the conductor was instructed as to the running of his train.
 An elastic mummage is made as follows:—To 20 parts of alcohol add one part of salicylic acid, 8 parts of soft soap, 8 parts of glycerine. Shake well, and then add a mummage made of 24 parts of camphor and 180 parts of water. This is said to keep well and to be thoroughly elastic.

 E. J. WEIDMAN, Proprietor.
TEMPERANCE CONVENTION.
 Qu'Appelle Council of the Royal Templars of Temperance and other friends of the cause throughout the Northwest Territories are issuing a call to a Temperance Convention to be held at Regina on Tuesday, 15th November, at nine o'clock. The object of the Convention is to discuss the present state of the Temperance question, and take such united action as may lead to a more restricted use of liquor in the Territories. All Protestant and Roman Catholic clergymen are earnestly invited to attend, and all Temperance workers from any part of the Northwest will be heartily welcomed. Each town, village or settlement is urgently requested to send one or more delegates to the Convention. Reduced rates on the C. P. R. are being arranged for. It is hoped that the friends of temperance will do all in their power to promote the objects of the Convention, and that every part of the Territories may be represented as far as practicable. Let us have such a gathering of Temperance workers as will show a determined stand against the introduction of a legalized liquor traffic in the territories, and whose deliberations will possess weight and influence in any legislation that may be enacted in the proposed organization of a more responsible form of government for the Northwest. Public meetings should be held everywhere and the present aspect of the Temperance question thoroughly discussed. It is not really necessary that the permit system should be denounced, but rather that some better law should be devised that would do away with the evils of the present system, and at the same time retain its good and practical features. Let the whole question be met fairly, and in a spirit that will commend itself to the people generally. We are on the eve of radical changes in the laws of the Northwest, and all who are opposed to a legalized and demoralizing liquor traffic should be prepared to resist its introduction.
 The Fort Qu'Appelle Vidette began its fourth year in an enlarged form. It is now as large as the Regina Leader, and shows marked evidences of prosperity. The business men of the Fort know the value of advertising and accordingly give their paper a liberal support in that line.
 The Northern Pacific extension has reached the Manitoba boundary.
 Dr. Clark's Sarsaparilla with loads of Potash and Soda has yet to form a cure of Scrophulous or any other kind of skin disease it cannot cure.

N. W. Council.

Regina, 14th October, 1887.
 The ninth and probably the last session of the Northwest Council in its present form, was opened this afternoon. The attendance of prominent citizens and strangers from a distance was unusually large, all available room in the Council Chamber being utilized. At 15 o'clock sharp, Lieut.-Governor Dewdney, respondent in Windsor uniform, and escorted by a body-guard of Mounted Police, and the Mounted Police Band arrived at the Chamber.
 The following members were present: Judge Richardson, Judge McLeod, Messrs. Reed, Irvine, Cayley, Land, Ross, Marshall, Cayley, Lawler, Jolly, Seck, Crawford, Cunningham, Wilson, and Turill. Three members were absent, Judge Roubaud and Messrs. Hughes and Bedford.
 After the Lieut.-Governor had taken his seat the newly elected members, Mr. Wm. Sutherland, for the Qu'Appelle District and Mr. F. W. Hamlin, for the McLeod District, were introduced, and took their seats amid applause.
 The Lieut.-Governor then arose and read his speech, which is as follows:
 Gentlemen of the Northwest Council:
 It gives me great pleasure to meet you at this, the Ninth Session of the Northwest Council, and to be able to congratulate you on the increasing prosperity of our Territories.
 The results of the harvest just past have, as you are no doubt aware, exceeded our most sanguine expectations; the average yield per acre is much larger than was estimated before threshing commenced, and the grain has proved to be of the highest quality. The Agricultural Exhibitions, which have recently been held throughout the Territories, speak for themselves, and the interest taken by the many Representatives of the Eastern Provinces who attended them, will be the means of advertising to the world the abundant yield derived from the settled portion of our Territories and will draw attention to the fact that immense areas of similar Country are still awaiting settlement.
 The exceptionally severe winter we experienced since we last met does not appear to have materially affected our Stock industry. The slight losses sustained by our Stockmen, as compared with those of our Southern neighbors, speak highly for our Ranges. Cattle wintered well and losses were confined to new importations, which had no time to become acclimatized or accustomed to the Ranges. The District of Alberta is now not only supplying its own large local demands, but has already commenced shipments of cattle to the Old Country markets. The result of these shipments is being looked forward to with much interest, as should they prove successful, an enormous impetus will be given to this industry.
 Although in all probability this is the last Session of the Northwest Council, as at present formed, you will be asked to consider some important matters; chief among which will be the changes you consider necessary in the constitution of your Government. At the last meeting of the Dominion Parliament two private bills were introduced dealing with the question, but the Government, being at the time unable to give the matter the attention it deserved, decided to postpone its consideration and to continue the Northwest Council as then constituted for another Session. I have been requested to confer with you upon the subject, as it was thought from your knowledge of the wishes of the people and the requirements of the Country, that you could suggest some inexpensive form of Government, which would give the people a great control over the management of their affairs and, by subdividing the whole of the Territories into Electoral Districts, would enable every settler to have a voice in the Government of his Country.
 It is a source of gratification to me, in turning to the very important matter of the condition of our Indian population, to be able to inform you

that, although one or two isolated cases of crime have been attributed to Indians, tranquility has prevailed and a marked progress been made.
 This state of harmony between the Indians and Settlers has recently been endangered in a manner which suggested to me the necessity of issuing a Proclamation on the subject. I hope, however, that the case will be met if I impress upon the representatives of the people the very grave danger incurred by Settlers taking the law into their own hands, and the absolute necessity for seeking redress through legal process alone. As I understand the Law of the Land, on no account unless in self-defence and in the last extremity, should firearms or other deadly weapons be used against Indians by any one, as the imprudent action of a single individual may easily bring on a series of murderous outrages. I think the many of these difficulties would be avoided, were Settlers more wisely to recognize the fact that our Indians are fellow subjects of our Queen, with the same rights and liabilities as their men.
 The very favourable season has given to the Indians on many of the Reserves an abundant harvest, and specimens of grain, roots and kindred industries, have been exhibited at the various local Agricultural Shows, with a result which proves that some few of the Indians, at any rate, are rivaling the white man.
 I would invite your attention particularly to the excellent work done by the Northwest Mounted Police during the past season, one evidence of which is to be found in the fact that, since the completion of their system of patrols along the border, from Manitoba to the Rocky Mountains, no single case of horse stealing from either side has reached our ears.
 I am pleased to be able to report a most satisfactory progress in educational matters. There are now 4 Public, 102 Protestant, and 21 Roman Catholic School Districts organized in the Territories, being an increase of 4 Public, 25 Protestant, and 7 Roman Catholic Districts. In these districts there are 4 Public, 8 Protestant and 20 Catholic Schools open, with an attendance of 75,335 and 680 pupils respectively, showing a total increase in attendance of about 550 pupils during the year.
 Owing to the Amendment passed last Session, to the effect that Trustees might give holidays during the months of July or August, it has been found necessary to alter the time for the inspection of schools, and to allow the Trustees to hold their inspections in September or October. For this reason it will be impossible for the Board of Education to present as full a report as was made last Session, but the Secretary has prepared statistical tables showing the state of the Schools in the various Inspectors' districts, which will be laid before you.
 The working of the School Ordinance, as amended last Session, has shown the necessity of further alterations, and with a view of avoiding the complications attending amendments, a new Ordinance, consolidating and amending present legislation, has been prepared for your consideration.
 Since we last met, no new Municipalities have been formed, of those already established under the act passed in 1885.
 I propose to submit for your consideration draft of Ordinance respecting Statute Labor. Districts which have been formed with a view to the aid for general assistance in the construction of public roads and bridges, where Municipalities do not exist. Amendments will be required to a few of the Ordinances of last Session, including the Civil Justice, the Joint Stock Companies and the Agricultural Societies Ordinances.
 I have had crop returns prepared for your information from all 16 of the Territories, but which I regret are not as complete as I could wish. Out of 168 townships, 163 are from, I find there are 76,836 acres under cultivation of which 23,854 are in wheat, estimated to yield an average of 23 bushels per acre, 416 in oats, estimated to yield 40

(Continued from second page.)

average of 39 bushels per acre; and 8,244 in barley, estimated to yield an average of 32 bushels per acre; the balance, 5,370 acres, being in roots.

Within this area 16,596 acres have been broken this season.

A Statement of the Receipts and Expenditures of the General Revenue Fund has been prepared and will be submitted to you as usual with the Auditor's report.

During the recess new Elections have been held in the Qu'Appelle and Macleod Electoral Districts owing to the resignation of previous members.

A recent trip over the Canadian Pacific Railway has convinced me more than ever of the incalculable benefits which the World generally will derive from the construction of that great undertaking. Fresh industries are starting all along the line. In the Territories, coal, both hard and soft, is being worked with most gratifying results. Other Minerals are being developed and Timber manufactured.

On the western slope of the Mountains these industries are being still more extensively carried on.

A market for the manufactures of the Lumber Mills has been opened up not only in our Territories, but events far as the Eastern Provinces. I found in the West many of the Staples produced in our Territories, showing at this early day that an exchange of commodities has already taken place. All this is now to be seen in a Country, which a few years ago was thought to be quite inaccessible and practically of little value.

My experience has been that these results invariably follow railway construction, and it is with regret that I am unable to congratulate you on any increase to the mileage to our Branch Lines during the past season.

Through no fault of ours, complications have arisen, whereby the raising of the necessary funds for this purpose has been prevented, and, owing to the absence of railway facilities, the Settlers, with their granaries full have been precluded from obtaining as profitable a market as they might otherwise have done.

I shall be glad to forward any representations you may feel called upon to make to the Dominion Government in furtherance of this question, and to give it my hearty cooperation.

This year, which is now drawing to a close, and which we all so joyfully celebrated, should not be allowed to terminate without an expression of our heart-felt congratulations to Our Most Gracious Sovereign on the Fiftieth Anniversary of Her Accession to the Throne. I shall therefore ask you to join me in preparing an address to Her Majesty, and I regret that our meeting so late in the year has prevented our doing so at an earlier date.

I shall be happy to tender you any assistance I can in expediting the business of the Session, and I trust that whatever may be decided regarding the future Government of this Country will prove satisfactorily to its people, and will conduce to their prosperity and happiness.

Mr. Ross moved, seconded by Mr. Reed, That Messrs. Hughes, Jelly, Cayley, Crawford, mover and seconded, be a Committee to draft a reply to the Lt.-Governor's speech.

Mr. Wilson moved, seconded by Mr. Crawford, That Messrs. Macleod, Ross, Turill, Cayley, Jelly, the mover and seconded, be a Committee to restrict the standing committees for the session.

Ordinances respecting Schools and Sanitary Labor Districts were taken on the table.

Mr. Cayley moved an adjournment.

Monday, Oct. 17th, 1887.

His Honor took the chair at 14.30, when all the members were present except Messrs. Marshall, Bedford, B. Leau, Hughes and Ross. The minutes read and adopted.

Mr. Justice McLeod, from the committee, submitted the address

in reply to His Honor's speech as follows:

"To His Honor the Lieutenant-Governor.

May it please your Honor,

We, the members of the Northwest Council, beg to thank your Honor for the address with which you were pleased to open the present session.

We heartily join with your Honor in the heartfelt congratulations upon the increased prosperity of the Territories, and the abundant harvest with which they are blessed.

It is gratifying to know that the very severe winter through which we have passed has not effected the stock industry so seriously as was anticipated, and that the exportation of cattle has commenced from the western ranches.

We beg to assure your Honor that we will give our earnest attention and consideration to such changes in the constitution of our Government as will give the people a greater control over, and every settler a voice in, the management of the affairs of the country.

We are glad to be informed by your Honor that the state of the Indians is satisfactory, and that a marked progress has been made, and beg to express the hope that both the Indians and white men, recognizing the danger that exists from carrying pistols, may abandon the practice altogether.

We are glad that your Honor, in whose hands the direction of the N. W. M. P. lies, is satisfied with the force during the last season, and trust that when any violation of the law takes place at the boundary lines their patrols may be in a position to deal effectually with the offenders.

The report which your Honor makes with regard to educational matters is very gratifying.

We will be most happy to consider carefully any amendments which may be proposed to the ordinances now in force, and others which we may have to deal with.

We beg to thank your Honor for the crop returns which have been promised, and to express our gratitude that the last year's operations have been successful.

We join with your Honor in acknowledging the very great benefit the building of the Canadian Pacific Railway has been to the country and mark with great pleasure the statement that so many important industries have sprung up along the line.

We appreciate the invaluable results which invariably follow the construction of railways and regret with your Honor that nothing this way has been accomplished in the Territories since our last meeting. We trust that the complications which your Honor speaks of may be solved at an early date.

It will give us the greatest pleasure to join with your Honor in heartfelt congratulations to our Most Gracious Majesty on the happy completion of the fiftieth anniversary of Her Accession to the Throne.

And we trust that whatever is done at this meeting of the Council may prove satisfactory to the people of the Territories and conduce to their prosperity and happiness."

Council then went into committee of the whole and passed the address without discussion or amendment.

Committee rose and the address was presented to the Lt.-Governor.

Mr. Justice McLeod from the special committee, reported the standing committees as follows:

Civil Justice—Messrs. Richardson, McLeod, Rouleau, Marshall, Turill, Cayley, Haultain, Reed, Irvine.

Schools—Messrs. McLeod, Rouleau, Marshall, Turill, Cayley, Hughes, Second, Wilson, Crawford, Cunningham.

Finance—Messrs. Ross, Bedford, Hughes, Laidler, Jelly, Sutherland, Wilson.

Agriculture—Messrs. Jelly, Bedford, Crawford, Turill, Cunningham, Laidler, Sutherland, Ross, Br. land.

Report adopted.

Dr. Wilson moved, seconded by Mr. Haultain that a return be brought

down showing all fines remitted to His Honor the Lt.-Governor, for convictions under the liquor law, from Jan. 1st, 1887, to date, together with names of the convicted magistrates and the dates and places of conviction.

His Honor said this was a Dominion matter, but he thought there would be no objection to having the return made.

Motion carried.

Mr. Wilson introduced an ordinance to amend the Game Ordinance, which was read a first time and referred to a special committee consisting of Messrs. Haultain, Crawford, Second, Cunningham, McLeod, Sutherland, Rouleau, and Wilson.

Mr. Second asked that the bill be printed and distributed.

The School bill was referred to the committee on schools and the Statute Labor bill to the Agricultural Committee.

Council then adjourned until Tuesday at 14 o'clock.

HOME & GOSSIP.

QU'APPELLE.

—The Progress from now to Dec. 31st, 1888, for one dollar.

—Brazed horse blankets, \$3.50 per pair, at Milliken & Co's.

—Stacks of hay have been destroyed by prairie fires south of the town.

—Look out for a new advertisement next week from C. C. Bailey & Co.

—Mr. S. H. Collins says there is nothing like leather with a ten per cent reduction. See ad.

—The report of the Secretary-Treasurer of the Brass Band will appear in THE PROGRESS next week.

—Mr. Frank Marwood has purchased a house and lot on Walsh street from Mr. J. B. Graham. The cage, eh?

—If everybody would plow good firebreaks all around their land, the damage done to our bluffs by prairie fires every year would be very much lessened.

—The Royal Templars of this place and other friends of the cause in the Territories join in calling a Temperance Convention to meet at Regina on the 15th November.

—Qu'Appelle Masonic Lodge will be constituted, the officers installed and the hall consecrated by W. Bro. James Weidman on Tuesday evening next. Visiting brethren are invited to attend.

—The Ideal Concert Company will give entirely different programs at their concerts here and at the Fort. They will be at the Fort on Wednesday evening and here on Thursday evening of next week. A copy of their program may be seen at this office.

—A few days ago a box was left at our office with the information that it was from Mr. J. G. Milne. On opening it we found a fine collection of vegetables, for which he has our thanks. Mr. Milne is one of our most enterprising and practical farmers.

THE IDEALS.

Spoken of the Ideal concert the Morning Call says:

"Their quartet-singing would be hard to improve upon; the four voices sang one another as I and I did admire. Mrs. A. E. Fette's magnificent bass was heard in better form. I have more than my former power and volume and has lost none of its richness. Mrs. Jones sings with much expression and judgment. She has a fine voice and uses it well. Her lower notes are particularly well taken and in the quartet she does to great advantage. As a contrast Miss Nellie Webster has no equal in Manitoba. Her rich date like voice is a treat either in a solo or duet. It is well cultivated and used artistically. Mr. Joseph Tees, as a tenor, completes the quartet and could not be bettered. His voice blends probably better than any other in Manitoba and for this reason is a great strength to the Ideals. A new treat is in store for those who attend the concert to be given by this talented company."

The Ideal Concert Company will sing at Qu'Appelle, Thursday, October 27th.

Correspondence.

To the Editor of the Progress.

SIR: A great many poor people from Manitoba and the Northwest have taken in the cheap excursion to the Pacific Coast, and we have many more asking the question, Why does the C. P. R. not give us such a rate to the East? Now I venture to think that if the C. P. R. would get up a cheap excursion from the Territories and Manitoba to return in say sixty days, a great many of our farmers would be enabled to go to their old homes, and desire to their old friends and neighbors life as it is here, and explain all the advantages of our grand country. I feel convinced that such an excursion would do more for the cause of immigration than hundreds of thousands of dollars spent in pamphlets and other advertising material.

The people would speak of the resources of the country about the firesides and at the festivals, etc., and as we all know, there is nothing like personal influence. The mechanic talks to men in his particular line, the farmer to farmers and each hearer will have more confidence in those whom he has known and will not feel that the pictures are overdrawn. If a stranger was to go East or to the old country and endeavor to draw a true picture of things as they are, he would at once be looked upon with suspicion. The marriage scheme being adopted by the C. P. R. is a good one, but with that also why not give all classes an opportunity and I feel satisfied the results will infinitely repay the outlay.

Hoping to see this question taken up by the press of the Northwest, I am,

Yours, etc.,
E. P. RICHARDSON,
Grenfell, October 18th, 1887.

—Cash paid for potatoes at THE PROGRESS office.

A shrewd writer says that by advertising the trader and his calling becomes identified, and the name of a man is inseparably connected in the mind of the public with his merchandise. It may not be the very day the advertisement appears that it bears fruit; weeks and months may elapse, and then, when the want arises, the articles to be obtained immediately suggests the advertiser. This is the effect of general advertising when persistently followed.

STRAYED,

While milking on the 17th inst. at Indian Head.

44 Grade Southdown Ewe.

Some marked with Red on back, noses tarred. Reward for information leading to recovery of all or part. Probably separated in small lots.

Address, J. D. WRIGHT,
Care Joseph Glen, Livery,
Indian Head.

October 20, 1887.
